Esteban Ruiz

Mechatronics Engineer | Data Scientist | Machine Learning Engineer
| Applied AI
Bilbao, Basque Country, Spain

Experience

Managing Innovation Strategies

AI Intern

October 2024 - June 2025 (9 months)

Erandio, Basque Country, Spain

- Developed supervised and unsupervised machine learning pipelines to classify unidentified web traffic. The final RandomForest model successfully classified over 59,000 bot sessions, revealing that >50% behaved as aggressive scanners.
- Utilized unsupervised clustering (K-Means, OPTICS, DBSCAN) for exploratory data analysis, discovering 7 distinct user behavior patterns, and ensured model interpretability using SHAP.
- Engineered and optimized LSTM neural network models to forecast key web traffic metrics, achieving an R^2 score of up to 0.79.
- Managed the complete experiment lifecycle using MLflow for tracking and automated hyperparameter tuning with Optuna.

Internet Brands

Software Engineer Trainee

July 2023 - February 2024 (8 months)

Los Angeles, California, United States

Worked in Legal Admin/Sales Portals, including NoloLeadgen, Nolo Sales, and Martindale Nolo. Participated ensuring software quality through meticulous Bug Reporting, comprehensive Manual and Automation Black Box Testing (Regression, Smoke, and Sanity), API Testing, and Test Case Maintenance. Contributed to successful achieving QA Certification, and thriving in collaborative team environments delivering high-quality results through a detail-oriented and teamwork-driven approach.

Getecsa

Junior Consultant

July 2023 - February 2024 (8 months)

Monterrey, Nuevo León, Mexico

Alura Latam

Oracle Next Education (ONE)

August 2022 - February 2023 (7 months)

Dived deep into front-end programming languages, including HTML, CSS, and JavaScript.

HAMMERBYTE GAMES

Game Developer Intern

August 2021 - December 2021 (5 months)

Puebla, Mexico

Joined the team to train and work with the Unreal Engine 4 tool using C++ programming and blueprints.

Worked in a top down roguelike shooter game (GamitGun) with a team of developers by testing and debugging game code to ensure quality and performance, resulting in a 30% reduction in game bugs.

Participated with a team of artists in the modification of animation blueprints and rigging resulting in an improvement in overall game aesthetics.

Education

Mondragon Unibertsitatea

Master's degree, Artificial Intelligence · (September 2024 - March 2026)

Universidad de las Américas Puebla

Bachelor of Engineering - BE, Mechatronics, Robotics, and Automation Engineering · (January 2017 - May 2022)

EF International Language Campuses

English Language and Literature/Letters · (July 2016 - October 2016)
